**Timișoara - România, October 23 - 25, 2008**

**Dear Colleagues!**

**Welcome to the XVI<sup>th</sup> National Congress of Endocrinology with International Participation, being held in Timisoara, in October 23-25, 2008.**

**The topics of this meeting (*Screening in Endocrine Diseases and Endocrine Incidentalomas*) have an important practical relevance.**

**The congress will bring together prestigious and experienced specialists from Romania and abroad and also young endocrinologists.**

**During this meeting we propose us to discuss conceptual, physiopathological and practical aspects, related to the declared topics.**

**Our meeting will certainly generate an interchange of opinions between different Endocrinological schools and also between different generations.**

**We are honored that this important event is held in our town, an attractive place, with old economic, cultural and scientific traditions.**

**In the same time, we hope that you will enjoy your stay in Timisoara, where near the interesting objectives you can feel and understand the so called „spirit of Timisoara“.**
